If you are having any minor problem with the Team Manager or Team Manager Lite, we would appreciate it if you have the one person you have designated as the person who will be dealing with the program be the one person that will contact Francine Hawkins. (1 626 367-9257) She will walk that person through the software which should make the coaches life and the meet directors life easier. We would like it if you would enter all of the athletes info into that database from the beginning. Name, date of birth, membership # and contact info ( address, city and USA is sufficient.) Once that is done then all you will have to do is change the events and times and export it on to the meet director. Helping us all means, better meets with less computer issues.
